What Diversity Means to Us

Diversity

Diversity refers to characteristics that make individuals different from each other. Diversity encompasses differences in backgrounds, qualifications and experiences, and also differences in approach and viewpoints. It includes factors such as gender, age, ethnicity, religious or cultural background, language, disability, marital or family status, sexual orientation, gender identity and other areas of potential difference.

Gender Diversity

EML has a strong commitment to gender diversity and the fundamental principle that gender is not a barrier to participation in our workforce, senior management and on our Board. Our leaders are committed to providing opportunities that allow women to reach their full potential.

To achieve greater diversity, it is important to ensure that where possible that the pool of potential available talent is nurtured and developed effectively. Early identification and development of female talent is clearly of significant importance in having appropriately qualified and experienced women for consideration when positions become available.

Board and Senior Management Diversity

At EML, diversity of gender and background are two important criteria that are taken into account in the development of succession plans and appointment processes for Board and senior management positions. However, other selection criteria, in particular business acumen and industry experience, are also fundamentally important. The Remuneration and Nomination Committee will regularly report to the Board regarding succession plans and appointment processes with the aim of achieving diversity objectives, particularly with respect to the number of women in senior management positions and on the Board.

Achieving Diversity

The Board is responsible for establishing transparent, measurable objectives for achieving diversity and articulating the corporate benefits arising from employee and Board diversity.

The Board will:

- review and determine, as frequently as required, strategies, programs and initiatives that will foster diversity and meet the particular needs of the EML Group;
- through the Remuneration and Nomination Committee, seek to ensure that diversity is a factor that is taken into account in the selection and appointment of qualified employees, senior management and Board candidates and will consider options to expand the pool of qualified candidates to select from;
- consider and review the recommendations made by the Remuneration and Nomination Committee in relation to the objectives for achieving gender diversity and the initiatives and strategies proposed to support those objectives; and
